Orders and Enquires — 0121 556 8288

The ideal solution for personnel with a need to be easily and readily identified.

This innovative ID Armband allows a security or identity card to be clearly displayed with minimum risk of it being lost or damaged.

The card can be inserted quickly and easily into the heavy-duty, weatherproof PVC holder. The Armband comes with an adjustable elastic strap enabling it to be slipped over the wearer's arm rapidly and sit comfortably without impeding movement.

Once in place the Armbands are very noticeable without being obtrusive, making the wearer immediately identifiable in a smart and professional manner. The Armbands are constructed from an ingenious prismatic material that makes them highly effective 24/7 due to being reflective by night and have enhanced daylight visibility (fluorescent).

These ID Armbands are Security Industry Authority (SIA) compliant. The SIA is the independent authority reporting to the Home Secretary with responsibility for regulating the private security industry and the compulsory licensing of individuals undertaking designated activities such as door supervisors and security guards.

The ID Armbands have proved invaluable in assisting the Police and authorities both during incidents, and after on CCTV footage, by enabling them to immediately identify security personnel and others in authority.

SUITABLE FOR:

- Emergency services
- Security staff
- Local authorities
- Utility services personnel
- Charity workers
- Event organisers
- Door supervisors
